Education

COOP Careers x NYU SPS Collaboration - Data Analytics Fellowship

December 2026

- Engaged in a 16-week fellowship program, acquiring expertise in data cleaning, transformation, analysis, and visualization using SQL, Python, and Tableau, alongside continuous professional development.
- Gained 200 hours of instruction time with a hands-on mastery of data tools, communication training, networking, and client work with actual companies.
- A highly selective program that allowed me to collaborate with peers and industry professionals to strengthen professional communication, build relationships, and apply analytical skills in real-world business settings.

CUNY, Queens College

Bachelor in Computer Science

Queens, NY

December 2025

Technical Skills & Certifications

- **Certifications:** Google Analytics Professional Certificate (Coursera), Google Project Management Certificate
- **Programming Languages & Visualization:** Python, SQL, Excel (Pivot Table and Vlookup), Tableau

Projects

NYC Arrest Data Analysis, Exploratory Analysis of NYC Arrest Trends (Python, Pandas, Matplotlib)

July 2026

- Conducted exploratory data analysis on NYC arrest data using Python, Pandas, and Matplotlib in Google Colab to identify trends and patterns.
- Translated analytical findings into a final presentation using data visualization and simplified explanations for a non-technical audience.
- Delivered clear, data-driven insights that improved understanding of NYC arrest trends and patterns.

Work Experience

Bipsync - FinTech SaaS Company

New York City, NY

Customer Success Associate - Technical Account Management Team

July 2026 – Present

- Configure client fields, workflows, and use APIs to optimize data management and reduce manual processes by 90%.
- Manage 10–30 clients weekly, analyzing client data and troubleshooting platform issues to improve workflow efficiency and support resolution.
- Build strong client relationships through active listening, clear communication, problem-solving, and solution-oriented support while managing multiple priorities.

Tech Incubator at Queens Village (TIQC)

Queens, NY

Data and Innovation Analyst

September 2025 – June 2026

- Managed 5+ client projects simultaneously, coordinating timelines, stakeholders, deliverables, and reporting to improve workflow efficiency by 45%.
- Analyzed and validated client data using Python, SQL, Excel, Power BI, and Tableau to identify trends, mitigate operational risks, and support data-driven decision-making.
- Communicated complex data and recommendations clearly to clients and cross-functional stakeholders, demonstrating active listening, problem-solving, organization, and a solution-oriented approach.
